## Supervised Clinical Experience

**Note:** The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2021-22. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes  
 No

If yes, provide the next two responses. If no, leave them blank.

### Programs with student teaching models (most traditional programs)

Number of clock hours of supervised clinical experience required prior to student teaching

200

Number of clock hours required for student teaching

560

Are there programs in which candidates are the teacher of record?

- Yes  
 No

If yes, provide the next two responses. If no, leave them blank.

### Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom

200

Years required of teaching as the teacher of record in a classroom

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

15

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

255

Number of students in supervised clinical experience during this academic year

90

Please provide any additional information about or descriptions of the supervised clinical experiences:

All students complete 16 weeks of full time student teaching (M-F, complete school day). Elementary candidates have two assignments of 8 weeks each, one in K-3 and one in 4-5. Middle Grades candidates have two 8 week assignments, one in each of their teaching certification areas. K-12 candidates have two 8 week assignments, one in elementary and one in middle grades/secondary. Special education candidates complete 8 weeks in a special education setting and the other 8 weeks in their other major (elementary, middle grades, or secondary). Secondary students complete all 16 weeks in one school and with one cooperating teacher. University Clinical Educators are required to have 4 formal observations, plus evaluate dispositions and required portfolio documents and reviews.

# Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

**(§205(a)(1)(C)(ii))**

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- >> [Teachers Prepared by Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

**Note:** This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Candidates in the MAT program take a special education course which details information on working with students with disabilities, including the nature and needs of each disability category, legal mandates required by the Individuals with Disabilities Education Act (IDEA), and collaboration strategies required to work with special education teachers. Candidates in the special education program choose certification at either the mild level (learning and behavior disorders, LBD) or moderate to severe level (moderate to severe disabilities, MSD). In both cases, candidates learn to assess students, differentiate instruction based on Kentucky Academic Standards, and manage behavior. In addition, all candidates are required to develop lesson plans to meet the needs of all learners, including those with disabilities, limited English Proficiency, and diverse socio-economic backgrounds, utilizing the principles of Universal Design for Learning (UDL). Candidates implement the lesson plans in their field experiences and clinical experience, reflecting

on the impact of their instruction on P-12 student learning. Candidates are also placed in a variety of schools, including rural, urban, and suburban.

## Assessment Pass Rates

THIS PAGE INCLUDES:

>> [Assessment Pass Rates](#)

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

## Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

On this page, review the questions regarding your program's use of technology, and update as needed.

**Note:** This section is preloaded from the prior year's IPRC.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes  
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes  
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes  
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates in the MAT program complete a technology course. The MAT candidates also complete an electronic portfolio, which documents meeting the Kentucky Teacher Performance and InTASC Standards. The standards include infusing technology into lessons as well as student use of technology during instructional activities. In addition, all candidates are evaluated on their use of various technologies through the EPP-wide technology rubric that was developed and implemented in 2016-17. All candidates take an assessment class as part of their program, which requires them to work with mock P-12 student data. Candidates use technology to analyze the data and determine the potential impact of their instruction on P-12 student learning. Candidates in the special education alternative certification program learn about technology in their methods classes: assessment, methods, applied behavior analysis, assistive technology (MSD), and secondary students and transition (LBD). They use technology to record and analyze results from assessments, and to graph data from behavioral interventions and response to intervention projects. Additionally, they analyze the data from assessments to implement instruction based on assessment results and develop and implement behavior intervention plans based on data from functional behavior assessments; while monitoring and adjusting the plans based on data analysis. They to measure their performance based on the Kentucky Teacher Performance Standards and SPA standards (Council for Exceptional Children). During their culminating experience, candidates are assessed on both the KY Teacher Performance Standards and the CEC standards, ensuring they have the knowledge, skills, and dispositions to be effective special educators.

# Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

**Note:** This section is preloaded from the prior year's IPRC.

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

During their special education class, MAT candidates learn about the nature and needs of all of the disability categories covered under the Individuals with Disabilities Education Act (IDEA), steps for referral for special education services, and assessment and identification practices. They also learn about the legal mandates covered under IDEA and their legal responsibilities to provide services to these students. MAT candidates also learn about Universal Design for Learning (UDL), collaboration with special education teachers, and co-teaching strategies to ensure all students in the classroom receive an adequate education. In addition, candidates are required to develop lesson and unit plans to meet the needs of all students, including those with disabilities, based on the principles of UDL. As part of the reflections of each lesson and unit plan, as well as the holistic reflections included in their e Portfolios, candidates discuss the impact of their instruction on P-12 learning and the strategies they will use to increase student learning in the future.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

MAT candidates learn about the IEP process in the course described above. They learn not only their legal requirements and responsibilities, but also collaboration strategies and the nature and needs of disability which allows them to become more active participants on IEP teams, and more effective teachers to students with disabilities in their classrooms.

#### c. Effectively teach students who are limited English proficient.

Information about teaching students with limited English proficiency is embedded across all of the courses the MAT candidates take. In addition, information on students with limited English proficiency is also included in each lesson and unit plan, with candidates required to state how they will differentiate their strategies and activities to meet the needs of all students, including those with disabilities and limited English proficiency. They apply the principles of UDL to their lessons, ensuring all students benefit from instruction.

### 2. Does your program prepare special education teachers?

- Yes  
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

Candidates completing the special education alternative certification program are required to complete various disability related courses, a methods course, an assessment course, and an applied behavior analysis course. Since they are teaching special education in their own classrooms, candidates are required to complete field assignments from the courses with their students with disabilities. In the assessment course, candidates learn to assess students with disabilities using both formal (norm-referenced) and informal (curriculum-based, observational) assessments. They asses a focus child in their field experience and complete a full assessment report. That information is then used by the candidates in the methods

course. In that course, candidates develop a plan to address the needs found by their assessment. This plan becomes the basis for a response to intervention project, in which the candidates select and implement various teaching strategies, collect data, and analyze the results. The entire project is summarized in a formal response to intervention report for their focus student. Candidates also develop a behavior intervention plan for a student in their field experience. This plan, based on a functional assessment, is implemented and data are collected. Those data are analyzed and reported in a formal paper. During their culminating clinical experience (professional laboratory experience) special education candidates are formally observed by University personnel to ensure they are able to apply the knowledge gained from the special education alternative certification program. Additionally, candidates self-assess their skills and create an implement a professional development plan to address any skill deficits or areas of improvement.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

Special education alternative certification candidates are taught the nature and needs of disability, the laws regarding providing services to individuals with disabilities in the classroom, developing individual education plans, and collaborating with general education teachers to ensure those plans are implemented with fidelity. Additionally, special education alternative certification candidates are teaching students with disabilities while taking classes. They serve as the teacher of record and are responsible for developing IEP's, attending the IEP meetings, and ensuring the IEP is implemented with fidelity.

**c. Effectively teach students who are limited English proficient.**

Information about teaching students with limited English proficiency is embedded across all of the courses the special education alternative certification candidates take. In addition, information on students with limited English proficiency is also included in each lesson and unit plan, with candidates required to state how they will differentiate their strategies and activities to meet the needs of all students, including those with disabilities and limited English proficiency. They apply the principles of UDL to their lessons, ensuring all students benefit from instruction.
